VL-2 VINYL STORAGE HI-FI RACK

INSTALLATION

STEP 1

STEP 2

BEFORE STARTING: CONSIDER TO ASSEMBLE ALL THE HARDWARE PARTS UPSIDE DOWN FOR EACH SHELF TO EASY UP THE INSTALLATION. PREPARE A SAFE SURFACE FOR THE OPERATIONS.

Dear Music Lover,

thank you for purchasing one of our VL Series racks. This product is specifically designed to valorize the enjoyability of your audio experiences and by following this short manual we will guide you throught the safe product installation.

Important Recommendations:

- Before the assembly secure an installation zone and keep children, animals and third parts away from all the materials included into the package;
- Some steel parts, if handled without attention, could also be sharp;
- The product can be assembled by a single person but any secondary assistance could be helpful;
- The rack is made by dangerous spikes and hardware parts, so be extremely careful while assembling it. We decline any responsibility for any accidental damage to people, animals or objects;
- Before of assembling the product, find the proper place in which it will be placed. Sliding the product on the floor, during and after its installation, is always dangerous, so never do it;
- During the assembly always grab the shelves and not the hardware parts on them. This is the safest way for handling the product;
- For cleaning the shelves we simply suggest the use of a damp cloth;
- To avoid undesired issues never strike the structure, never give strong shakes and not use the product as if it was a chair;
- The product is only designed to support audio-video components;
- All the shelves are made of painted MDF wood, so gently move the components on them during the installation of your system.

thank you for purchasing one of our S3 Series racks. This product is specifically designed to valorize the enjoyability of your audio experiences and by following this short manual we will guide you through the safe product installation.

Important Recommendations:

- Before the assembly secure an installation zone and keep children, animals and third parts away from all the materials included into the package;
- Some steel parts, if handled without attention, could also be sharp;
- The product can be assembled by a single person but any secondary assistance could be helpful;
- The rack is made by dangerous spikes and hardware parts, so be extremely careful while assembling it. We decline any responsibility for any accidental damage to people, animals or objects;
- Before of assembling the product, find the proper place in which it will be placed. Sliding the product on the floor, during and after its installation, is always dangerous, so never do it;
- During the assembly always grab the shelves and not the hardware parts on them. This is the safest way for handling the product;
- For cleaning the shelves we simply suggest the use of a damp cloth;
- To avoid undesired issues never strike the structure, never give strong shakes and not use the product as if it was a chair;
- The product is only designed to support audio-video components;
- All the shelves are made of painted MDF wood, so gently move the components on them during the installation of your system.

NS-4 TRADITIONAL HI-FI SPEAKER STANDS

SCALE 1:5

Dear Music Lover,

you just purchased one of our Hi-Fi speaker stands designed to support your listenings. We recommends to assemble the product paying always attention to the floor surface to avoid scratches. After assembly is completed, do not forget to regulate the bottom spikes. To clean the shelves just use a damp cloth. The metal poles need to be well locked on the shelves. Face shelf can support a maximum weight of 10 Kg (20 lb). The hardware parts are made to be well locked during the assembly process. Always keep children away from the edges.

Thank you, we wish you all the best!

Package Content:

- A) Top Shelf, x2
- B) Aluminium Poles, x10
- C) Bottom Shelf, x2
- D) Screws, x20
- E) Patafix, x10
- F) Adjustable Spikes & M6 Nut, x8
- G) Protective Inox Floor Mini-Discs, x8

SS-5 ICONIC HI-FI SPEAKER STANDS

SCALE 1:10

Dear Music Lover,

you just purchased a pair of stands, for bookshelf loudspeakers, completely handcrafted and made in Italy. The first time this model was introduced on market is been in 1992. We recommend to pay attention on the product parts and to assemble it safety, keeping the spikes, the spheres, and the other materials away from children or animals. Also, do not forget to consider the surface of the floor. We always suggest to purchase our "S Series Pads" as accessories for decoupling the tips from the ground. The product is fillable with metallic powder. Before of screwing the top plates on the frame, put the metal spheres on the concave holes. Face shelf can support a maximum weight of 10 Kg (20 Ib). The hardware parts are made to be well locked during the assembly process. Always keep children away from the edges.

Thank you, we wish you all the best!

Package Content:

- A) Top Shelf, x2
- B) Aluminium Poles, x6
- C) Screws, x6
- D) Separator, x2
- E) Adjustable Spikes & M8 Nut, x6
- F) Protective Inox Floor Mini-Discs, x6
