Safety Information

IMPORTANT SAFETY INSTRUCTIONS

Read these instructions.
Keep these instructions.
Heed all warnings.
Follow all instructions.
Do not use this apparatus near water.
Clean only with dry cloth.
Do not block any ventilation openings. Install in accordance with the manufacture's instructions.
Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
Do not defeat the safety purpose of the polarized or grounding plug. A polarized plug has two blades with one wider than the other. A grounding plug has two blades and a third grounding prong. The wide blade or the third prong is provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
Protect the power cord from being walked on or pinched particularly at the plugs, convenience receptacles, and at the point where they exit from the apparatus.
Only use attachments/accessories specified by the manufacturer.
Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart or rack is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.

Unplug the apparatus during lightning storms or when unused for long periods of time.
Refer all servicing to qualified personnel. Servicing is required when the apparatus has been damaged in any way, such as power supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.
CAUTION: These servicing instructions are for use by qualified service personnel only. To reduce the risk of electric shock, do not perform any servicing other than that contained in the operating instructions unless you are qualified to do so.
WARNING : To reduce the risk of fire or electric shock, do not expose this apparatus to rain or moisture. The apparatus shall not be exposed to dripping or splashing and that objects filled with liquids, such as vases, shall not be placed on apparatus.
WARNING: The mains plug is used as disconnect device, the disconnect device shall remain readily operable.

⚡ **CAUTION**
RISK OF ELECTRIC SHOCK
DO NOT OPEN ⚠

ATTENTION:RISQUE DE CHOC ELECTRIQUE-NE PAS OUVRIR

- This lightning flash with arrowhead symbol within an equilateral triangle is intended to alert the user to the presence of non-insulated "dangerous voltage" within the product's enclosure that may be of sufficient magnitude to constitute a risk of electric shock.
- Warning: To reduce the risk of electric shock, do not remove cover (or back) as there are no user-serviceable parts inside. Refer servicing to qualified personnel.
- The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance instructions in the literature accompanying the appliance.
Apparatus with class I construction shall be connected to a mains socket outlet with a protective earthing connection.

Capacity
80Kg

VESA
700 x 400mm

Warning - Please read before installation

Your LED TV is able to accommodate wall mounting with the use of a wall mount bracket

(Not supplied with LED TV, please contact your local hardware store)

and the mounting holes on the back of the unit.

Please thoroughly read instructions before attempting installation The only suitable for the 43"–75"Outdoor TVs.
We advise that 2 people install the screen due to the heavy load of the screens.

Please be sure the mounting surface is strong enough to hold the weight of the screen.

Installation

Step1–Mounting Bracket to Wall

Attach back plate to wall using supplied screws.

Step2–Mounting Hooksto TV

Remove 4 x screws from back of the TV, line hooks up with the holes and attach hooks to back of TV using theses crews.
Installation

Step3—Mounting TV to Bracket
Mount TV to wall bracket by lining up hooks with the poles and then lock in to place.

Troubleshooting

Area	Problem	No	Potential Cause	Solution
Power	No red standby light on TV		Power supply not receiving/ giving power	Check connection between power lead and PSU - green light should be visible on PSU
	Standby light stuck on red		Remote not emitting signal	Try new battery in the remote
	Standby light green; no picture		Power supply not receiving/ giving power	Check connection between power lead and PSU - green light should be solid on PSU
Signal/ Input	DTV - No signal	1	Not tuned in with channels	Auto-tune using DTV Auto-search in menu
		2	Aerial problem	Try TV on another aerial in different location - if picks up channels, likely an issue with the location of the bathroom aerial
	DTV - Inteference on screen		Caused by equipment around the the aerial	Move aerial to different position away from any power cabling
	HDMI - No signal	1	No signal received from source	Check connection on TV and source
	USB - Media cannot be played		File format not compatible	Change file format and attempt to play
Audio	No sound - Speakers	1	Mute	Try mute button on remote
		2	Sound trying to route to external speakers	Disconnect audio out/earphone port
	No sound - external speakers		No signal bewteen TV and external speakers	Check audio connection at either end

WEEE Compliance Scheme

Worldwisetrading Ltd is a producer of Electrical and Electronic Equipment (EEE) and is therefore obligated under the Waste Electrical and Electronic Equipment (WEEE) Regulations. We are fully compliant with all responsibilities as a registered member of UK government approved WEEE Compliance Scheme, Comply Direct. Our WEEE producer registration number is WEE/CF2743YR.

We have formally documented policies relating to the WEEE Regulations and we review our processes on a formalised and regular basis to ensure we remain fully compliant.

The UK WEEE Regulations were first introduced in 2007 with the aim of reducing the amount of EEE ending up in landfill. As per the requirements of the Regulations, we finance the recovery and recycling of WEEE when it reaches the end of its life and ensure our EEE products are marked accordingly with a crossed out wheeled bin symbol and a date mark. We also provide information on reuse and environmentally sound treatment of the products.
